

Fortunate Local Growth PSP (ZAR)

As of 2026/08/31

Investment Objective

The primary goal of the Fortunate Local Growth Portfolio is to achieve long-term capital growth by strategically investing in a diversified selection of high-quality growth-oriented local equities. This portfolio is designed for investors comfortable with higher risk profiles. This portfolio prioritizes companies demonstrating robust earnings potential, scalable operations, and a track record of generating above-average growth rates compared to their peers.

The risk and return objectives of this portfolio may vary, given its active management approach. The portfolio dynamically reallocates assets across local equities in response to evolving economic and market conditions, aiming to maximize overall returns.

In the event that specific collective investment schemes in securities (unit trusts) are mentioned please refer to the relevant fact sheet in order to obtain all the necessary information in regard to that unit trust.

Collective Investment Schemes in Securities (CIS) are generally medium to long-term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the company/scheme. Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used.
